Presentation

I am Brazilian but **live in Portugal**. I love learning **new technologies** to build spatial intelligence solutions. I am currently dedicated to developing my **digital skills**. I am open to **internship** and **job** opportunities.

Be part of an **innovative company** with **customer-focused** solutions and a **positive impact** on the world.

Education

Institute Polytechnic of Bragança | Master Environmental Technology

Current

International mobility - course with a technological focus applied to processes and optimization.

University Federal Rural of Rio de Janeiro | Graduation Environmental Management

Current

Linked to applied social sciences has a multidisciplinary proposal that increases the vision of solutions.

Prime System | Technical Web Designer and Computer Maintenance

2011

Professional technician with initiation in programming and web development with user-centered designer.

Professional Experience

IPB | Scientific Internship

2020

6 months

Studies on forest fires and **software development** to measure the severity of rural fires with **JavaScript** and **cloud computing**. The **application helps** in the **mapping** of the burned areas for the generation of databases to **support** preventive **strategies** and **asset protection**.

Freelancer | GIS and Environmental Consulting

2020

3 years

I developed **business plans**, **customer service** and **project execution**. I completed field **surveys** for data **collection**, data **processing** and **registration** on the **environmental regulation** platform for rural properties in Brazil.

UFRRJ | Scientific Internship

2019

2 years

I participated in the Geotechnology Laboratory by supporting the community to **solve problems** of **structuring spatial data**, **analysis techniques** and **automation** of GIS processes. I helped teachers and students with internal demands at UFRRJ.

Vale Verde SSA | Project Diretor

2017

1 year

I did **market research**, **prospecting strategies**, budgets and **technology development**, **technical projects** and **training** for new members. I participated in the restructuring of the company's business plan using canvas methodology, map the processes and develop products.

Between 2015 and 2017 I kept my focus on studies and vocational development for the following years.

Volunteer work

Auxiliary Remote Sensing | UFRRJ

2019

I made the **acquisition** of data and **processing** of **satellite images**, support in scientific projects, **solving problems** with **spatial data**. It was an **opportunity** to **learn more** and **help people**.

Auxiliary Water Resources Management | UFRRJ

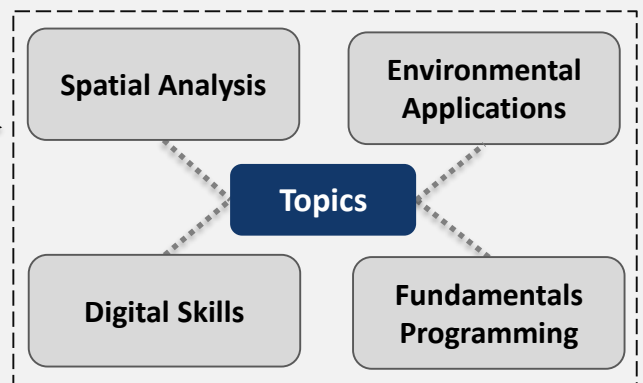

2018

I **created a tool** for **automatic delimitation** of watersheds, **3D Modeling** of the territory for dynamic visualization of data with a focus on **watershed management**.

Complementary Training

Category	Unity	Detail
Courses	52	955 hours
Technical Events	36	270 hours
Technical Presentations	17	event
Published Works	12	event

Skills

Plataforms

ArcGIS, QGIS, Power BI, Visual Studio Code, GitHub, Carto, Notion, Airtable

Languages

HTML, CSS, JavaScript

Frameworks

Enterprise Design Thinking (Design for AI), SCRUM Agile Fundamentals

Softskills

Helpful, Dedicated, and Proactive

Communication

Achievements

Innovation Award | Castlethon IPB

2020

First place in the Brigantino Trade **Innovation category** at the **Hackathon Online Castlethon**.

Design Thinking Practitioner Seal | IBM

2020

Thinking business with a **focus** on the **human**, critical thinking, creative and opportunities for **multiple solutions** with **experimentation** and **creation** of business **values**.

Win International Mobility Selection Process | UFRRJ

2019

First place in the selection process to participate in the **international mobility** promoted by UFRRJ.

Academic Award | UFRRJ

2018

Best **multidisciplinary** work and **applied research** at the VI Annual Scientific Initiation Meeting (VI RAIC).
